Are Your Employees Struggling with Money? (how to know & how to help)

Warning Sign #1

What are your employees talking about? What do you hear as a manager?

- Going to check cashing places
- Borrowing money from family members or friends
- Frequently taking time off from work or coming in late
- Requesting loans or pay advances
- "I need to send more money back home to help my parents."
- "I wish I could buy my own home!"
- "So many expenses for school coming up..."

This is your employee’s way of solving common money problems – yet many of these options don’t help solve the root issue.

Warning Sign #2

What are your employees doing? What do you see?

- Pay Increases
- Pay Advances
- Loans
- Time-Off

Any Resources To Help Them

Advice On What To Do

Make real change. Connect them to our nonprofit.

What You Can Do at This Moment:

If this is the financial reality for some of your employees... it could be negatively affecting your culture, your team’s morale, and productivity as a whole.

The next time you see your employee struggling, you can either...

SAY...

"Hang in there... I wish there was something I could do..."

HELP THEM...
